PROFESSIONAL SUMMARY

A recent Information Systems graduate with a solid foundation in programming, including Python, C#, .NET, Java, JavaScript, and SQL. Participated in programming competitions such as IT Got Talent and Code Tour during university, enhancing problem-solving skills and logical thinking. Completed a 2-month internship in ERP development using Odoo, gaining practical experience in software development. A highly motivated and eager-to-learn individual seeking an opportunity as a Full Stack Developer to work on real-world projects, gain hands-on experience in both frontend and backend development, strengthen technical skills, and grow professionally in a collaborative environment.

EDUCATION

2022-2026

Ho Chi Minh City University of Technology
Major: Information Systems.
GPA: 3.59/4.0

TECHNICAL PROJECTS

Project: Traditional Martial Arts Tournament Management System **09/2025 – 8/2026**

Project Description: A web application built using the MVC architecture to manage martial arts tournaments, participants, match scoring, online registration, player rankings using the ELO rating system, and other core tournament operations.
Tech Stack: ASP.NET Core MVC, C#, SQL Server, JavaScript, ML.NET.
Role: Full-stack Developer.
Responsibilities / Achievements:
+ Designed and developed the tournament management system using ASP.NET Core MVC.
+ Developed tournament, participant, match, scoring, and online registration features.
+ Implemented the ELO rating algorithm for player ranking and automatic ranking updates.
+ Designed and managed the SQL Server database and application data models.
+ Integrated ML.NET for match outcome prediction based on historical match data and player rankings.

Project: Vở Luyện Anh – Adaptive IELTS Learning Platform **05/2026 – 08/2026**

Full-stack Developer | Python, Flask, SQLAlchemy, SQLite, JavaScript, AI APIs
+ Developed a local-first IELTS learning platform covering Reading, Writing, Grammar, and Vocabulary.
+ Implemented adaptive learning based on target band score, assessment results, and learner weaknesses.
+ Built vocabulary learning with AI-generated suggestions, spaced repetition (SRS), and practice exercises.
+ Integrated AI for content generation, Writing feedback, and queued retry processing.
+ Developed mastery tracking, consolidation tests, topic unlocking, and maintained 152 automated passing tests.

ADDITIONAL INFORMATION

- Technical Skills:
  + Programming Languages: C#, C++, JavaScript, python.
  + Web Technologies: HTML, CSS.
  + Frameworks: .NET Core / ASP.NET Core.
  + Database: SQL(SQL Server), PostgreSQL.
  + Tools: Git, Visual Studio, VS Code.
  + Concepts: Object-Oriented Programming (OOP), RESTful APIs.
- Award: Outstanding student 2023,2024,2025.
- I am currently improving my English proficiency and preparing for the TOEIC certification.
